

FS MULTICUT 851C2L

Description

FS MULTICUT is formulated with a proprietary blend of oils and additives designed to enhance metal removal operations. This product is used to perform such operations as sawing, drilling, tapping, boring, and machining.

FS MULTICUT is designed to be used non-diluted and not to be mixed with water, oil, or solvent. Wash parts using standard cleaning methods

Typical Physical Specifications

API Gravity	33.6
Viscosity:	
cSt @100°C	5.36
cSt @40°C	31
Viscosity Index	105
Pour Point, °C (°F)	-21 (-6)
Flash Point, °C (°F)	220(428)
Sulfur Wt. %	.8
Fat Wt. %	.8
